Everyone is Welcome and all are invited to join us in this tradition heralding Advent and Christmas through scripture readings and song. The Festival of Nine Lessons and Carols was first held at Cambridge University England on Christmas Eve in 1918 as the Spanish influenza pandemic raged. The readings, prayers and music tell a story of God's love and it is with this spirit of hope that this tradition continues with various Churches throughout the world today.

"The main theme is the development of the loving purposes of God... God is with us and is the same Yesterday, today and tomorrow!"

All are Welcome - Admission is Free

Parking is available along Front Street as well as off of Arthur St*.
